

For 75 years, L.A. Hearne Company has been producing California's finest animal feeds.

CONSISTENCY

Our feeds are "Locked Formulas" guaranteeing bag to bag, lot to lot consistency.

QUALITY

Top quality grains, trusted supply sources, and stringent quality control result in feeds that you can trust.

HEALTHY

Species specific diets combined with nutraceuticals that promote health and wellness result in balanced and cost-effective feed solutions.

Family owned and operated, L.A. Hearne strives to provide exceptional service while offering consistency of quality unsurpassed in our industry. Try King™ or Integrifeed today – for quality, value and performance!

THE ESSENTIALS

A complete line of poultry and gamebird feeds providing superior nutrition for consistent growth and performance. Nutritionally balanced for the life stage, species or production requirements with guaranteed levels of vitamins, minerals and essential amino acids.

POULTRY

Medicated Chick Starter Crumble. Amprolium aids in the prevention of coccidiosis.

16% Layer. Optimized for maximum egg production and quality. Calcium and Phosphorus improve egg shell thickness and marigold petal extract enhances yolk color. Available in mash, crumble and pellets.

Medicated Broiler Crumble. Promotes healthy, weight gain and development of broilers.

All Purpose Flock Pellet. Supports the nutrition and laying needs of adult multi-species flocks including: chickens, ducks, turkeys, geese, pigeons and game birds.

GAMEBIRD

Waterfowl. Supports all types of ducks and geese and is enhanced with antioxidants, pre and probiotics (heat-stable live bacteria) for digestive and immune support. Pellets. Grower/maintenance (19% protein) or layer (18% protein) formulas.

Turkey. Natural feeds that include no artificial flavors, dyes, preservatives, drugs or hormones. Enhanced with antioxidants, pre and probiotics (heat-stable live bacteria) for digestive and immune support. Starter Crumbles (28% protein) and Grower (24% protein) formulas.

Quail. A crumble (20% protein) includes antioxidants, pre and probiotics to support digestive and immune health and calcium/phosphorus to support laying.

Pheasant. A natural crumble (28% protein) that is enhanced with antioxidants, pre and probiotics (heat-stable live bacteria) and our G/I herbal complex to support digestive and immune health.

Ratite. Optimized for emu and ostrich, the pelleted feed includes antioxidants, pre and probiotics (heat-stable live bacteria) to support digestive and immune health. Available in a Grower/Maintenance (17% protein) and a Breeder (20% protein with increased calcium/phosphorus) formula.

Consistent Quality and Performance

King Feed is highly sought after and recommended by professionals.

ORGANIC FEEDS AND GRAINS

Certified to USDA's exacting standards for an organic product. Organic standards ban many controversial practices and ingredients such as MSG, hydrogenated fats, GMO's, traditional pesticides, fertilizers and radiation.

100% CERTIFIED ORGANIC GRAINS

- **ORGANIC SCRATCH (50:50 Corn:Wheat)**
- **ORGANIC CRACKED CORN**
- **ORGANIC Re-Cleaned CORN**
- **ORGANIC Re-Cleaned WHEAT**

ORGANIC CERTIFIED POULTRY FEEDS

Produced with the finest organic ingredients and certified to USDA Organic standards; our Organic Poultry Feeds are also ENHANCED with:

- Prebiotics to promote gastrointestinal health & integrity,
- Probiotics (heat-stable live bacteria) that establish & maintain healthy gut microflora while improving nutrient digestibility,
- Diatomaceous Earth for improved feed efficiency and parasite control,
- Our G/I herbal complex for digestive and immune support,
- Omega 3's support heart health and enhance egg nutrition.

Available formulas: **Chick Start and Grow Crumble** (22% protein)(continue usage for Broilers), **Layer** (17% protein) **Pellet** or **Crumble**.

FREEDOM POULTRY FEEDS

A budget friendly line of natural feeds that are **GMO and Soy Free** that promote healthy birds and wholesome poultry products. Supports the additional nutritional requirements of colored egg layers.

NATURAL

GMO and Soy Free. Contains no drugs or hormones, artificial flavors, dyes or preservatives.

HEALTHY

- Enhanced with vitamins, minerals and essential amino acids for optimal growth and development,
- Pre – and probiotics (heat-stable live bacteria) aid digestive and immune health,
- Diatomaceous earth improves feed efficiency and aids internal parasite management,
- A G/I herbal complex supports digestive and immune function,
- Omega 3's and marigold petal extract enhance egg quality and nutrition,
- Antioxidants protect against the harmful effect of free radicals.

ECO FRIENDLY

Natural enzymes improve bioavailability of nutrition and minimize nitrogen/phosphorus for eco-friendly waste management.

Available Freedom Feeds: **Starter Crumbles** (20% Protein), **Layer** (17% Protein) **Pellets** or **Crumbles, Broiler Crumbles** (20% Protein).

SHOW FEEDS

SHOW FEEDS

Award winning **Pro Am** Poultry Show Feeds produce brilliantly colored and healthy show birds. Formulated with inputs from the American Bantam Association, this unique feed is based on **white corn** to eliminate staining of the skin and feathers from the xanthophylls in yellow corn (a staple in traditional poultry feeds) and is a bantam friendly 1/8" pellet.

Additional feed enhancements include:

- Pre – and probiotics (heat-stable live bacteria) to aid digestive and immune health,
- Antioxidants protect against the harmful effect of free radicals,
- Whole plant yucca, a natural anti-inflammatory also minimizes ammonia odor in waste,
- Betaine, a natural plant extract, prevents dehydration and reduces stress.

Show N' Grow (17.5% protein), **Layer** (16% protein).

Calexico Gamecock Mix is a colorful blend of grains, seeds and nutrient-dense red pellets containing:

- Pre – and probiotics (heat-stable live bacteria) to aid digestive and immune health,
- Antioxidants to protect against the harmful effect of free radicals,
- A G/I herbal complex to support digestive and immune function,
- Omega 3's for heart health and feather development.

SUPPLEMENTS

Fancy Feathers Concentrate

A high protein (35%) supplement enhanced with nutraceuticals, Fancy Feathers is the perfect complement to grains to produce a balanced and healthy poultry feed. May be added to scratch or custom blends of grains, Fancy Feathers will add:

- Protein, vitamins, minerals and essential amino acids for optimal growth and development,
- Pre – and probiotics (heat stable live bacteria) to aid digestive and immune health,
- Antioxidants protect against the harmful effect of free radicals,
- A G/I herbal complex to support digestive and immune function,
- Omega 3's for heart health and feather development.

Dr. Cheeke's YQ+

A symphony of natural ingredients carefully orchestrated to provide a multi-targeted approach to gut health with unparalleled results.

As a daily health supplement, YQ+ reduces the need for handling multiple feed additives. It is a cost effective prevention strategy for maintaining the health and wellness of your animal and provides system wide support: cardiovascular, respiratory, digestive, immune, joint, reproductive and structural.

It is an excellent aid for stress management (showing, breeding, traveling), illness (appetite stimulate, medicine carrier, additional energy), dietary changes (minimizes digestive disruption) and respiratory or digestive distress (diarrhea).
