## PEDAL DOWN

**19.0% Crude Protein, 1.4% Lysine, 7.0% Crude Fat  
BMD 30 g/ton**

Pedal Down is ideally formulated for growing show pigs. Pedal Down will build muscle mass and shape while maintaining skeletal integrity through this important phase. It will also maintain the correct degree of finish for younger pigs.

Meal form with special flavor will stimulate feed intake.

Best when fed to show pigs at least 40# and up. A great transition/grower feed when starting show pigs after sale day.

Can also be used when increased muscle mass and shape is desired.

## MASSIVE

**15.5% Crude Protein, 1.1% Lysine, 7.0% Crude Fat  
BMD 30 g/ton**

A high energy, high fiber ration with a balanced amino acid profile makes this product unique in the show industry. Massive utilizes multiple fat and fiber sources that will help achieve added body and cover to show pigs while keeping muscle mass and shape.

Massive works great as a show gilt feed and also on barrows that need to be softened up and bodied down.

Meal form with special flavor will stimulate feed intake.  
Best when fed to show pigs at least 150 lbs.

## SPOT LIGHT

**17.0% Crude Protein, 1.1% Lysine, 5.0% Crude Fat  
BMD 30 g/ton**

A unique protein and amino acid profile will add muscle shape and bloom to your show pigs while maintaining an optimal growth rate. The addition of barley and steam rolled oats help develop a full and fresh look and a smooth cover needed to win at the highest levels.

Meal form with special flavor will stimulate feed intake.

Feed to show pigs weighing at least 80 lbs. and can be fed all the way to show day.

The design of this product with multiple protein and energy sources will add muscle shape while keeping structural soundness a top priority.

Spot Light is a simple feeding concept in which top-dresses are not required. Spot Light is formulated and proven to put winning results in every bag.
